

Welcome to the JACOBS SCHOOL OF ENGINEERING

Introduction to the IDEA Center

IDEA

Inclusion. Diversity. Excellence. Achievement.

Mission

Promote equity, community, and success for all engineering students at UC San Diego from admission through graduation.

Vision

Every engineering student thrives personally, academically, and professionally.

IDEA & YOU

1:1 support: We are here to help!

Academic Coaching appointments available!

- Goal setting
- Navigating difficult classroom situations
- Academic success & difficulty
- Resource wayfinding

Common questions students have...

“How do I study for my first midterm at UCSD?”

“How do I get involved?”

“My quiz didn’t go so well, how do I improve?”

“I need help!”

“Where do I go for support in _____?”

“I am having difficulty making friends...”

“I want to become a leader in an org...but not sure I have the skills?”

“I’m having difficulty with my teacher or roommates, what do I do?”

Engineering Learning Communities

ELCs are interactive and collaborative study groups organized by the IDEA Center. UG Peer Educators lead subjects and facilitate study groups to meet weekly. ELCs provide a group of peers that act as a support **network for student academic success.**

Sign Ups Open Quarterly
First Come First Served

- **Community-based Tutoring** facilitated by fellow engineering students
- **Core Classes:** Math, Physics, Chemistry
- **2 hour sections once a week**
- **Peer Educators** promote community and mentorship to participants

Engineering Success Courses

ENG 5

IDEA Scholars

Orientation to Engineering Profession

This course focuses on academic and personal/career planning, including resume development and preparation for future opportunities including research, internships, and graduate school.

ENG10

Open to All

Fundamentals of Engineering Applications

Open to all new engineering students 1st and 2nd years & 1 year transfer. Intro to Engineering, Math, Design, Make new engineering friends Learn the basic skills you need for your engineering classes

ENG15

Open to All

Engineer Your Success

This course focuses on academic and personal planning, time management, study skills, and paths to personal growth. Activities include individual and collaborative exercises, personal reflections, and a final project.

ENG20

GEAR Only

Introduction to Engineering Research

Topics include defining a research problem, finding and reading technical papers, technical writing, and effective practices for presenting research.

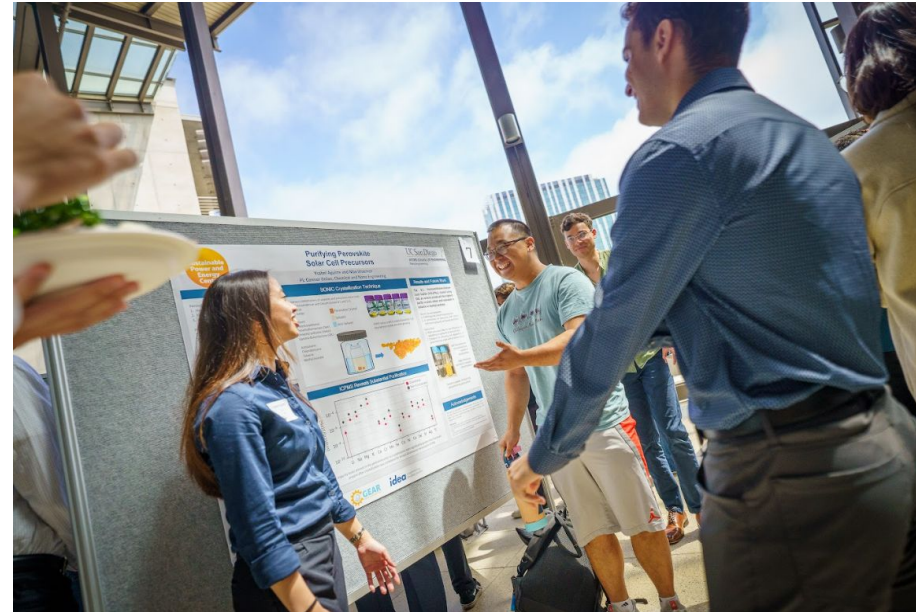

Want to get involved in research and don't know where to start? We've got you covered.

Guided Engineering Apprenticeship in Research

Year-long research apprenticeship program that provides opportunities for research to up-and-coming researchers.

- Connection with a mentor
- Learn the nuts and bolts of research skills in ENG 20 in Fall
- Actively engage in research with a faculty!
- Showcase your research in Spring

Application Period
March - April

WORKSHOPS

Workshops and Info Sessions for Engineers

- Academic, professional, and technical workshops, including topics like:
 - Identity-based connection
 - Career Readiness
 - Campus Resources
 - Technical Skills
 - Study Abroad
 - Grad school
- Wellness
- Identity-based connection within the engineering community

Open to ALL Engineering Students

Engineering Community Hour

Engineering Community Hour is a monthly informal discussion hour for undergraduate engineering students. This is an opportunity for students to connect with and engage in a small group conversation with engineering faculty and professionals in a supportive environment about topics of interest.

A casual community gathering, allowing students to interact and ask questions from professionals without the anxiety of a full professional event like a job fair

- **Mentorship**
- **Networking**
- **Community**
- **Industry Feedback**
- **Discussion and Opportunity**

Read weekly e-news

Seriously.

Research opportunities.

Events.

Job openings.

Important dates.

A group of approximately 20 students, mostly of South Asian descent, are posed in three rows in front of a modern, multi-story building with a distinctive geometric design. They are all wearing maroon t-shirts with a circular logo and blue lanyards. The text "COMING SOON" is overlaid in large, bold, cyan capital letters across the center of the image. The background is darkened, and there are decorative yellow particle effects on the left and right sides.

COMING SOON

Putting the “Center” in IDEA Center

You’re getting a brand new
study lounge!

Construction is happening
this year.
